💢 INSTALLATION NOTES

The common connection from the actuator must be connected to the Hot connection of the controller.

Actuators with plenum rated cable do not have numbers on wires; use color codes instead.

The actuator Hot must be connected to the control board Hot.

WARNING Live Electrical Components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.

TR24-3 Actuators, On-Off, Floating Point

NOTE: TR24-3(-T) US cannot be wired in parallel with themselves or any other actuator.
